# ABOUT US

“Palm Malaysia Seed and Nursery” was founded in 2014 by Mr. Pandit Meenakanit, the founder of the nursery who is deeply committed to enhancing the quality of Thailand’s oil palm industry. He believes that ‘a good seed is the beginning of prosperity and sustainability for every Thai farmer.’

For over a decade, we have developed and selected high-quality oil palm varieties – particularly the Sawit Kinabalu (SKS1) – which is certified by the Malaysia Palm Oil Board (MPOB) and officially imported with authorization from the Department of Agriculture, Thailand.

Since 2014

**Mr. Pandit Meenakanit**  
(Founder)

## (Vision)

We are dedicated to enhancing Thailand’s oil palm industry through the import and development of Sawit Kinabalu (SKS1), helping Thai farmers start with the right foundation.

We also continue to source MPOB-certified oil palm varieties from Malaysia to offer Thai growers greater choices and sustainable growth.

## Highlights of Sawit Kinabalu Palm

-  Large Bunches – High Oil Yield
-  Short Trunk – Easy to Harvest
-  Continuous Fruiting
-  Certified True Variety by MPOB

# Our nursery meets high standards – every seedling is hand-selected by experts.

Our nursery is designed to suit Southern Thailand’s climate and follows the standards of the Department of Agriculture.

Each stage – from soil preparation and moisture control to seedling selection – is carefully managed to ensure every plant is strong, disease-free, and ready for planting.

## Our Nursery Standards

Our nursery follows MPOB standards and is quality-certified by the Department of Agriculture, from seed cultivation to customer delivery.

→ Genuine Seeds from Malaysia

→ Certified Nursery in Surat Thani

→ Quality Checked at Every Stage

→ Standardized Seedling Facility

→ Kinabalu SKS1 Palm Seeds

→ Ready to Plant
